

Section 2: Short Answer Questions

In this section, we will ask several questions particularly relevant to research at JRI. We ask you to answer completely and truthfully. These questions are used to evaluate you as a student as well as to understand how best to provide a successful research opportunity to you. You may wish to work out answers to these questions on another paper.

1. Please describe what you believe scientific research is and why you would like to undertake it

2. What science training have you had either in or out of school?

3. Please describe any experience you have with computers or electronics.

4. What area of science interests you most? Why?

5. Have you had any experience in carrying out scientific research? If so, please describe.

6. Success of a student at JRI often times is affected strongly by the support of a student's parents. Please indicate how your parents view the value of scientific research.

7. Please describe your future educational and career goals, if possible.

Reference Form

Please give this form to a teacher or mentor who you have worked with and who knows your work habits and abilities well. This teacher or research mentor will be asked to respond to the questions given below. This will help us to determine your capability of successfully completing this course. Please turn in this form and any extra sheets in a sealed envelope along with the rest of your application.

To the reference: Please respond to all the questions below as completely and honestly as possible. It is more important that we get an accurate impression of the student in question than that we get a glowing impression. Thank you for the time you will put into this. Please return the form and any extra sheets to the student to be turned in with his/her application.

Reference Information

First Name	Last Name	Phone
Address		E-mail
Occupation		

Please answer the following questions as completely and honestly as possible.

1. How long have you known the student and in what capacity?

2. To your knowledge, has the student ever carried out similar work? If so, please describe.

3. What about the student makes him/her stand out? Why do you believe that he/she will be successful at JRI?

4. Is there anything else that you can add that will help us to assess the type of student you are recommending?

This concludes the JRI admission application. This application may be sent to

Jisan Research Institute
515 S. Palm Ave., #3
Alhambra, CA 91803

or faxed to
